

## LC-A0816 MultiFunction Switch Actuator

16A Multifunctional twelve channel actuator

### Operating Instructions

for authorised electricians

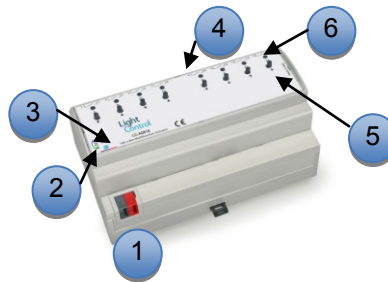

#### Important safety notes

Installation and commissioning of the device only be carried out by authorised electricians. The relevant standards, directives, regulations and instructions must be observed. The devices are approved for use in the EU and have the CE mark. Danger High Voltage: screw terminals can support 230VAC x 16A loads. Disconnect the mains power supply before installation or disassembly.

#### Operating Parts

- (1) KNX bus terminal
- (2) Programming key
- (3) Red programming Led
- (4) Output power screw terminals
- (5) Buttons for manual actuation
- (6) Green ON/OFF Led

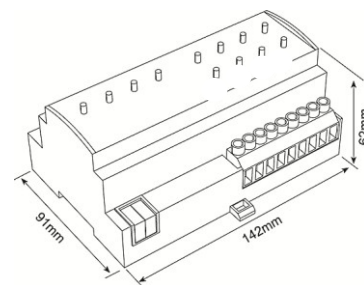

#### Installation

- (1) Place the Multifunctional Actuator on DIN 35mm rail.
- (2) Connect the Multifunctional Actuator to the KNX bus.
- (3) Wire up the Multifunctional Actuator as described in the circuit diagram.
- (4) Switch on KNX power supply and provide ETS program

#### Data

Number of Outputs	08
Ohmic Load	16A
Voltage	270VAC
Output Life Expectancy (mech.)	1.000.000
Power Supply	via KNX bus
Operation Temperature Range	[0-45]°C
Enclosure Design	IP20 91mm x 72mm x 62mm

#### Light Control
